## Stop That Headache and Save Your Nerves

Do not try to endure a headache, waiting with what patience you can until you have worn it out.

Why should you? It's a great deal better to save your nerves the wear and tear of torture.

One dose of

### Stearns' Headache Wafers

—a tiny tasteless wafer—brings you relief in a few minutes—real relief at that—leaves your head feeling clear and natural.

When this certain ease from that pain is always at hand (or at the nearest chemist's) there is no reason for suffering from headache.

You would not consider it wise to suffer from a cinder in your eye or a thorn in your hand a moment longer than necessary.

Think it over—and remember that Stearns' Headache Wafers CURE, yet never cause the formation of a drug habit.

## FREIGHT HAULING

We get the bulk of this work because of our superior facilities for handling it and our reasonable prices. We do all kinds of hauling, however, and are looking for more business.

The personal telegram sent by President Taft to Prince Chun, the Chinese Regent, in behalf of the American claim for equal participation in the Hankow-Szechuen railroad loan, has created a sensation among the foreign bankers and members of the legations in Peking, as they claim that the question has now become political, while before it was never recognized diplomatically.

According to Elbert C. Fergus, a prominent Chicago lawyer who has been traveling in Europe, shrinkage in prosperity is evident in many parts of England from the fact that there is an excessive percentage of idle and vacant business and residential property for sale. He says also that the people of Berlin have met an unwelcome surprise in the disclosure that the city's population has come to a standstill.

A system of identification has been adopted by the Pacific fleet to designate what division and to what position in the division each ship belongs. The identification consists of one or more black stripes, painted on the upper stacks of the ship. The number of stripes denotes the number of the division, and the smokestack on which the stripes are painted indicates the ship's position in the division. As there are four ships in each division, and four smokestacks on each ship, the system works out very well.
